

# STANDARD INSTALLATION TERMS & CONDITIONS

October 1st, 2023 until further notice

The following information provides a guideline of what is considered to be a standard smart domestic chargepoint installation.

Provided that the installation falls within the standard installation specification, installation costs should be:

	Product Description	Unit/Fascia Colour	Product Code	Cost of Install to Homeowner
QUBEV SMART	Up to 7.4kW Type 2 Socket	● Black	EVON0090	£499.00 (inc. VAT)
	Up to 7.4kW Type 2 5m Tethered	● Black	EVON0095	£601.00 (inc. VAT)

## Standard installation specification

- 1x QUBEV SMART charging unit
- 1x Type-A electric vehicle RCBO & surge protection in 4Mod enclosure
- A maximum cable run of 10 metres from source of supply (consumer unit) to charge point
- The property's consumer unit must include sufficient RCD protection and have a spare empty slot to allow for the installation of an electrical protection device at source
- Cable to be surface mounted – clipped direct
- No ground works
- The prices listed above are subject to site survey/site conditions/location of property/location of chargepoint and your chosen electrical contractors Ts & Cs

## Additional costs

*To be negotiated prior to installation between the home owner and installer*

The following information provides a guideline of work that is considered to be beyond the standard installation specification:

- Cable runs exceeding 10 metres (chargeable per metre thereafter)
- The necessity to install a mini consumer unit with overload and fault current protection due to:
  - a) the property's consumer unit having insufficient capacity/protection for the chargepoint circuit
  - b) the homeowner wishing to have an independent chargepoint circuit protection from the home's consumer unit
- Any additional mechanical protection required for the cabling - i.e. trunking, conduit, etc.
- Any cable chasing requested by the homeowner
- Any ground works requested by the homeowner
- Any other works required on site in order for the installation to comply with regulations
- Any additional or unusual works requested by the homeowner in order for the install to take place, i.e. gas and water pipe bonding, equipment clearing, plumbing work, etc.
- An additional cost of £99 +VAT will be chargeable for the supply, installation and setup of a solar monitoring CT.

**Please note:**

- Removal of the serial number from the unit will invalidate the warranty on the product
